

“A Tribute to Sue Olsen”

When they made Sue Olsen, they broke the mold. Sue has graced the gates of Horses Help for 20 years. She is directly responsible for working with hundreds of our special needs riders. Her passion for our programs, riders, volunteers and horses is an inspiration to everyone at Horses Help. It is time now for Sue to join her family in the North West and bestow on them the wonderful smile and heart which is unique to Sue. She has left a wonderful legacy here at Horses Help. Although she will be missed dearly, she will be remembered always. We hope you join us for our Winter Classic Horse Show on January the 6th where we will honor Sue with a special tribute for her years of service. It will also be a great time to catch a glimpse of that wonderful smile, get one of those strong meaningful hugs and share your personal experiences and stories with friends of the center.

Our Special Present:

On many occasions, you may ride into the center and see Sue picking up rocks or directing dirt mounds to be dropped. No, she is not trying to see of what the earth is made, she is adding value to her special place, “The Sensory Trail.” This area directly in on our eastern front is an area of land which has meant so much to Sue. The sensory trail has been a passion of hers since moving to our current location. The trail is an interactive area where horses and riders can engage there minds while attempting to maintain their seat on the horse. This trail will forever be named “The Sue Olsen Sensory Trail.” As we continue to add interesting interactive stations to the trail, Sue’s legacy will live on.

We all wish Sue the best of what life brings to her because she is leaving the program stronger today than when it started in that memorable back yard. She is one of the pioneers of Therapeutic Riding in the State of Arizona, and for that we are truly grateful. We will continue to honor her service with striving to provide the finest Therapeutic Riding Programs in the State.

Please join the Horses Help family in thanking Sue for leading us on a wonderful journey of heart, mind and soul. We love you Sue, may your future trails be paved with joy and happiness.

Founder of Horses Help, Cindy Ramsey, gives Sue her recognition Hug
