

The Charro's Go Large!

When Charro's event President Adam Mays approached me about doing a special event which supported our organization 2 years ago, I was speechless. The Scottsdale Charro's never think small; they go large, **very large**. Imagine walking into the West World covered megaplex. I do not know what else to call it. Our hosts were all decked out in best Cowboy gear as they greeted their guests and made you feel at home as they whisked you away into one of the biggest area events of the year, "The First Pitch." This event celebrates a year of fundraising with a live band, great food, beverages of your choice and one of the largest auctions this side of the Mississippi! This auction had something for everyone, brand new truck, private jet excursions to exotic destinations, thousands of specialty items and enough western trinkets to make any woman's year!

It was a wonderful event benefiting four very special organizations including ours, Horses Help! I was very proud to know that this organization recognizes our achievements and supports our programs and riders with gusto. The past two years the Charro's donated \$20,000 dollars to our organization and we appreciate all of their hard work and dedication for having a wonderful impact on our community.

So next year in February, get ready to put on your dancing boots and join us at the Charro's "First Pitch" event. You will not be disappointed.
